

h1>Overview video — shooting list

Click by click, in **recording order**, for a silent screen capture that the narration goes over afterwards. The script is the companion file; this is only what your hands do.

Three of the nine takes are on a phone. Two of them are on a **different show** from the rest, and that is the thing most likely to trip you up — see "Which show" below.

BEFORE YOU RECORD

1. ~~Two roles are missing from the directory.~~ Fixed 2026-09-16. "Stage manager" and "operators" now exist as roles and people hold them, so the script stands as written and the fill picker finds somebody:

ROLE YOU ASK FOR	FREE	BUSY ON LAKESHORE
Stage Manager	Dana Okafor, Miles Turner, Ruth Callahan	Nina Brennan
Operator	Hana Kwon, Desmond Pike, Lucia Ferrer, Owen Baptiste	Farrah Nasser, Gil Tran
A1	Bianca Moss, Chris Ferraro	Alex Reyes
V1	Jordan Vega, Elias Vance	Sam Whitfield
LD	Marcus Webb, Rosa Delacruz	Tobias Kerr

They are SECOND roles on people who already had one — the stagehands are the stage managers, the BO techs are the operators — so nobody new appeared in the directory and the same people stay spoken for on Lakeshore.

2. Unlock Meridian Partner Summit. It is closed out, so §5's *Send Final Report* reads "Final report sent" and cannot be pressed. Unlock it first and the press is available — and pressing it at the end of §5 re-locks it, which is the shot. Check **Settings** → **Final Report recipients** is your own address first, because that press sends a real email.

WHICH SHOW EACH TAKE USES

TAKE	SECTION	SHOW
1–4	§1 · §2 · §3	the new show you build on camera , Oct 1 – Oct 5
5–6	§4 tracker, QR	the same new show
7	§4 "Your hours"	Meridian Partner Summit — the only show with a full week of hours
8	§5 Reports	Meridian Partner Summit
9	§6	Shows list

The new show has no punches until take 5, and even then only the few you tap — so anything that needs a real week of hours is Meridian.

SETUP

- ☐ - [] **Do not run** `npm run demo:reset` unless something is broken — the demo is already prepped, and a reset moves every date and re-locks Meridian. If you do run it, run `demo-recording-prep.sql` again afterwards.
- ☐ - [] **Do not run** `npm run demo:team` at all: it rewrites the presets and would give Sasha the scheduling permission back, so the §3 email would arrive twice.
- ☐ - [] Sign in as **dan@theaudiosmith.com**, company **CrewTracker Demo** (Settings → Companies, second tab).
- ☐ - [] **Light mode.**
- ☐ - [] **Do Not Disturb on**, Mac and phone.
- ☐ - [] **Already done for you** — `scripts/sql/demo/demo-recording-prep.sql` has removed the hand-built Oct 1–5 show, unlocked Meridian, and minted Alex Reyes's clock link. Re-run it only if you reset the demo, which re-locks Meridian and drops that link.
- ☐ - [] Open the Scheduling screen on any show and note the weekday each date falls on. Say those, not "the next day".
- ☐ - [] QuickTime → File → New Movie Recording → the arrow beside record → iPhone.

TAKE 1 — §1 THE PROBLEM

1. 1. **Shows** in the top nav.
2. 2. Sit still for three seconds.
3. 3. Scroll down once, slowly. Stop.

TAKE 2 — §2 BUILD THE SHOW

On the Shows list:

1. 1. **+ New Show.**
2. 2. **Show name:** type the show name.
3. 3. **Venue:** type it. **City & State:** type it.
4. 4. **Start date** Oct 1. **End date** Oct 5. *(Pause — the day grid appears.)*
5. 5. Section **2 • Payroll Rules** — open the preset picker, pick one. *(Pause.)*
6. 6. Back to the day grid. On each row toggle what the day is: - Oct 1 → **Travel** - Oct 2 → **Load-in** - Oct 3 → **Rehearsal** - Oct 4 → **Show** - Oct 5 → **Show + Load-out** *(Let the "Reads as" label land each time. This is the beat that sells it.)*
7. 7. **Production manager** → pick **Ray Delgado**. *(Pause on the confirm.)*
8. 8. Section **3 • Rooms & Positions** → add room **Main Stage**.
9. 9. Add room **Breakouts**.
10. 10. On Main Stage add positions: **1 × A1**, **1 × V1**, **1 × LD**, each **All days**.
11. 11. Add **1 × Stagehand**, and change its days to **Show days** *(the thing the script calls the stage manager).
12. 12. *On Breakouts add 2 × BO Tech, All days.*
13. 13. **CREATE SHOW AND SEND TO SCHEDULER.** (Hold on the confirm, then press.)*

TAKE 3 — §3 THE EMAIL, AND CREWING IT

1. 1. **CUT.** Switch to Mail. The message is " *is ready for staffing*".
2. 2. Click **Open the schedule**. It lands on the Scheduling screen.
3. 3. Sit still three seconds so the grid reads.
4. 4. On the **A1** line, click **Open** on the first day.
5. 5. The picker opens. **Alex Reyes** shows *Booked on Lakeshore Investor Day — Sat 3 – Mon 5* and **Book anyway. Hover it. Do not click it.**
6. 6. Click **Chris Ferraro** — he books across all five days at once.
7. 7. Fill the rest quickly: V1, LD, Stagehand, both BO Techs. Anyone free.
8. 8. **SEND EMAIL INVITES.** *(Hold on the confirm, then press.)*

TAKE 4 — \$3 ON THE PHONE

1. 1. **PHONE**. Open the booking request email.
2. 2. Scroll the day list slowly — top to bottom.
3. 3. Tap **Accept**. Let the confirmation page land.
4. 4. **CUT BACK** to the Mac. Refresh the Scheduling screen: that person is green.

TAKE 5 — \$4 THE TRACKER

1. 1. **PHONE**, on the new show → **Back to the tracker**.
2. 2. Pick a day with crew on it.
3. 3. Tap **START** on one person. Let the time appear.
4. 4. Tap **START ALL** on the room bar. Let them all fill.
5. 5. Tap one person's start time → the editor → change it → **Save**.

TAKE 6 — \$4 THE QR SIGN

1. 1. **MAC**: Edit Show → **Crew Clock** → **Create links** → **Print QR sign**. Print it, or hold the screen up.
2. 2. **PHONE**: camera at the QR code.
3. 3. Tap through: pick the room, find a name, tap it.
4. 4. Tap **Start**. Let it land.

TAKE 7 — \$4 THEIR OWN HOURS

1. 1. **PHONE**: open **Alex Reyes's** clock link for **Meridian Partner Summit** (from setup).
2. 2. Tap **See your hours**.
3. 3. Scroll the week slowly — the meal breaks, the overtime, the totals.

TAKE 8 — §5 PAYROLL

On **Meridian Partner Summit**:

1. **VIEW REPORT**.
2. **By Day** — scroll one day.
3. **By Crew** — scroll one person.
4. Sit on the **Master Summary** strip for three seconds.
5. **Export CSV**. Let the download land.
6. **Send Hours** on one person → let the share sheet open → close it.
7. **Send Final Report**. (*Hold the confirm, press, let the show lock.*)

TAKE 9 — §6 CLOSE

1. **Shows** in the top nav.
2. Sit still for five seconds.

IF SOMETHING SURFACES

Two things are true of the demo and worth knowing before you blame the app:

- **Dates move on every reseed.** The show you build is Oct 1–5 because you type it, but Lakeshore's overlap is computed from the same anchor — so check the picker before recording rather than trusting these notes.
- **Every email in this company comes to you.** That is the point, but it means the inbox fills up during a session. Clear it before take 3 so the right message is the top one.
